In-depth analysis for Farm Gate value

Focus:

It focus on different data items
(cit flower, fruit, nuts, vegetable, wheat
to distinguish with total value in map

Title: Australia horizontal.

Author: Xin Liu.

Date: 8/10/2024

Sheet: 3

Task: deep analysis for Farm Gate value.

Operations:

Farm
Gate
value.

State: victoria.

product: Fruit.

Farm Gate value: \$

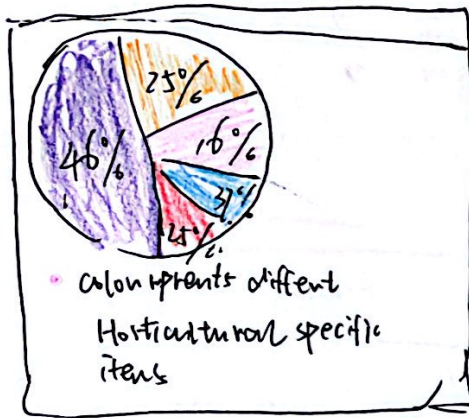

Click for detail
of the different
Horticultural crops
- holding the mouse
on the bar chart,
it will show
detail.

Discussion:

- Among the potential visualisations, which one is the most intuitive and why?
- Are any of the designs too complex and likely to confuse users?
- Does the chosen solution clearly convey the most important information in the data?

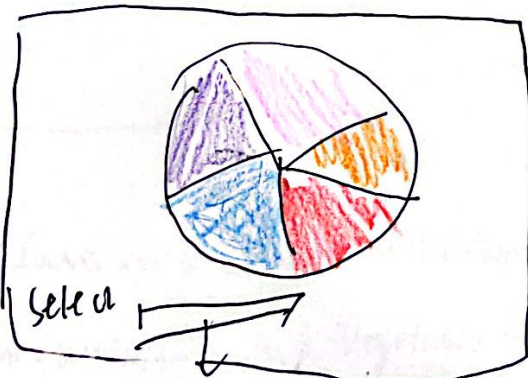

Layout:

Introducing something species in the ..
different Horticultural.

Focus:

This part is focus on using a select box to
distinguish different states or products items.

- Victoria • western Australia
- Tasmania • New south wales
